

SIA Education@ISC provides this guidance document to assist individuals in submitting speaker proposals to the appropriate education track for review by the Advisory Committee. Please direct any questions about proposal submission and track selection to education@securityindustry.org.

Track	Applied Technologies
Access & Identity Management	PACS; Controller Devices; Mobile Access; Biometrics; Authentication; Visitor Management; Credentialing
Business Development	Business Case Development; Value Measurements and ROI; Brand Development
Connected Security & IoT	Telemetry; Asset Tracking; IoT & Sensors; Data Privacy
Converged Security	Cyber-Physical Integration; Smart Buildings; Smart Cities
Cybersecurity & IT	IP; Network Security; Data Protection; Cyber Risk; Penetration Testing; Hacking; Case Studies; Insider Threats
Dealer, Installer, Integrator Business Development	Sales Strategies; Program Development; Service Models
Detection & Response	Alarms & Sensors; Intrusion Case Studies; GSOC; Manned Monitoring; Incident Response; Investigations & Forensics; Situational Awareness
End User	GSOC; Vertical-Specific Case Studies (i.e. airports, hospitals, etc.)
New Technology & Automation	AI; IoT; Home/Building Automation; Smart City; Unmanned Security
Open Standards & Interoperability	OSDP, ONVIF, PSIA, PSIM Deployments
Physical Security	Regulatory Compliance; Guard Services; Policy Development
Risk Management & Public & Health Safety	Security Assessments; Emergency Action Planning; School Safety; Active Shooters; Workplace Violence; Pandemic; Critical Infrastructure; Mass Communications
Security Design	Infrastructure; Architecture; Unique Case Studies
Security Megatrends	AI; Facial Recognition; Cloud Computing; Data Privacy; National Security; Connectivity & IoT; Workforce Development; Identity Management & Mobility
Security Professionals Under 40	Generational Case Studies; Leadership Development; Business Skills; Career Planning
Strategic Management	Governance; Policy Development; People Management; Project Management; Customer Service; Organizational Management; Diversity & Inclusion

Unmanned Systems	Aerial Security; Drones; Robotics; Remote Monitoring; Airspace Threats; Defense Strategies
Video Surveillance	Cameras; Video Management; Analytics; Thermal/Acoustic Surveillance
Women in Security	Diversity & Inclusion; Business Management; Leadership
