- Security cages for rent. Large and small safety containers may be rented from the official contractor. Exhibitors may prefer to bring a secure container of their own, such as a lockable trunk, footlocker or strongbox that can be stored out of sight in the booth
- **Merchandise passes.** These are special forms issued by Show Management. When properly filled out and signed by the exhibitor, they tell security guards that removal of an item from the exhibit floor is authorized. (Subject to Change)
- A free overnight storage room where exhibitors may store valuables will be available. We recommend that especially vulnerable items be kept in the storage room during non-show hours and during set-up and dismantling. (Subject to Change)

### WHAT EXHIBITORS CAN DO TO ENHANCE SECURITY:

- Exhibitor personnel must wear official Show Exhibitor badges at all times during move-in, show days and move-out. Please do not give Exhibitor Badges to anyone other than your full time employees and remove all badges from the building when you leave on your last day there. Badges left behind are often abused by unauthorized personnel so do not leave them in your booth or discard on the floor
  - At the close of business each day, cover all display tables. This establishes a barrier to curiosity seekers and other would-be thieves from selecting such items to steal at a later time
  - Place your wastebasket along the aisle at the end of each day to facilitate trash removal
- Immediately report to security or Show Management, the presence of any unauthorized visitors, or suspicious activity on the show floor.**
- Unpack product as close to the Show opening as possible. At the close of the Show, we suggest that you stay at your booth until these valuables are repacked
  - Treat especially valuable goods such as prototypes as irreplaceable. If they truly are one-of-a-kind, hire your own security guard. **Under no circumstances** should such goods ever be left unattended. Plasma Screens & Flat Screens, DVD's, televisions, laptops, and other electronic devices are particularly vulnerable to theft. Remove tapes or discs at night and store them in a safe place. Keep close tabs on personal items (cell phones, purses, laptops, briefcases, etc.)
  - Do not put articles of any value in a container marked **"EMPTY STORAGE"**, or behind booth
  - Shipping cartons should not identify contents. Use coded labels.
  - Give special considerations to prototypes, irreplaceable and highly valuable articles, or other sensitive items
  - Be sure to send copies of Shipping Information, including all tracking numbers with your set-up people so that they know how many pieces should arrive.
  - Booth staffing plans should take the following into consideration:
    - Who will be at the booth during set-up and dismantling?

## SHOW INFORMATION

- Will an inventory list be available to check complete delivery during set-up and complete shipment after dismantling?
- Will you need a security cage?
- Will you need a private guard?
- Should you safeguard material in the free storage room during non-show hours?
- Does everyone concerned know that nothing of value should be left in containers labeled "**EMPTY**"?
- Things to consider in preparing your booth duty roster:
  - Will someone be on duty at least a half-hour before the show opens? And until show is closed for the day? Will you schedule rotation to cover lunch breaks, etc?
- All of your booth personnel should be advised to wear official show badges at all times as a security measure, and to use the official Merchandise Passes when removing items from the exhibit floor
- DO NOT leave laptop, purses, cell phones, cameras, blackberry's, etc unattended

### **ONE FINAL WORD ABOUT SECURITY:**

The best security available is still inadequate and losses will occur, if exhibitors leave merchandise, especially valuable merchandise; unsecured in their booth overnight. Please place such valuables in the security room, overnight storage (subject to change), or otherwise secure all such merchandise at all times during the non-show hours.

Items particularly vulnerable to pilferage include DVD Players, monitors, personal computers and all small items of personal value. We strongly urge that these items be placed in the Security Room located on the exhibit floor.

We can assume no responsibility or liability for loss, damage or theft. That responsibility is yours, and we therefore recommend that you provide your own insurance coverage against all contingencies.

**ISC East Closes at 4:00pm.** Other than aisle carpet personnel, labor will not be admitted to the Show floor until 4:30pm. **Secure all valuables immediately!**

- Pack and label product and remove them, or hire Security until you can secure them properly. It is essential that exhibitor personnel remain in their exhibit areas until their display materials are secured. All small articles which can be easily picked up should be securely packed before you leave your booth after the Show closes at **4:00 PM**. Remember, during teardown, stay with your exhibit until your empty cartons are delivered and your goods are packed, sealed and properly labeled
- Do not leave material in your booth unlabeled at any time during move-out because many things could happen: it may be presumed abandoned; mistaken for trash; or one of your neighboring booths might label it in error!
