FOR IMMEDIATE RELEASE

Vistacom Enables Command Center Self-Assembly with Pre-Configured Kit

Allentown, Pa., March 1, 2022 — [Vistacom Inc.](#), a leading provider of audiovisual, communications and control room solutions, announced today the availability of its brand new and improved Vistacom SecureView™ all-in-one command center kit—the most straightforward and intuitive of its kind. Vistacom SecureView™ is an affordable, pre-engineered video wall and display solution that makes easy self-assembly a reality for small and medium operations centers with best-in-class products, expert remote support and a number of factory-tested configurations to choose from.

Video walls and displays play a critical role in helping control room operators gather data, assess potential risks, and engage in intelligent, proactive response. Right out of the box, Vistacom SecureView™ provides operators with a single-pane-of-glass view of operations across their infrastructure and enables the seamless assimilation of data feeds while creating a more simplified workflow.

All technology components are pre-configured and tested by Vistacom Control Room Solutions technicians at the factory prior to shipping and sent to site with an easy-to-follow guide that effectively enables DIY installation by security integrators or end-users. It includes a two-year warranty with comprehensive remote support directly through the Vistacom Managed Services Team.

“Today’s security operations centers demand efficiency and intuitiveness to maintain an effective and intelligent security posture,” said Dan Gundry, Managing Director of Vistacom Control Room Solutions. “Using vetted, best-in-class command center technology, our team has thoughtfully selected,

engineered and packaged the most reliable visualization solution that enables operators to view real-time data in a single operational picture.”

Vistacom SecureView™ features a powerful video wall processor providing flexibility and superior performance in a small form factor, high-quality 24/7-rated displays in multiple sizes and configurations, a 7” tabletop touch panel with user-friendly interface, and convenience options including wall or floor mounting, audio system add-ons, and ergonomic sit/stand operator consoles.

“This simplified technology offering allows us to empower our customers and partners by putting them in the driver’s seat and removing the complexities associated with larger, more demanding integrations,” said Angela Nolan, Chief Executive Officer of Vistacom Inc. “At its core, Vistacom SecureView™ is a foundational, yet scalable command center solution that delivers hassle-free situational awareness and streamlines operator decision-making.”

See Vistacom SecureView™ for the first time and learn more about Vistacom's integrated command center solutions at Booth #L28 at the 2022 International Security Conference & Exposition (ISC West), being held March 22-25, in Las Vegas.
