

Corvallis, Oregon (December 2022) – CyberLock, Inc., a market leader in key-centric access control solutions, is proud to announce that it has achieved ISO 9001:2015 certification. ISO 9001:2015 is a globally-recognized standard for quality management systems.

Organizations rely on CyberLock access control products to increase reliability, accountability, and visibility. An uncompromising commitment to quality has helped make CyberLock one of the most trusted names in security. ISO 9001:2015 certification demonstrates that this important commitment carries over to CyberLock, Inc.'s business practices. The certification process requires an extensive company-wide audit and evaluation confirming that CyberLock, Inc. has established and maintained the elements of a strong quality management system. These clearly defined systems and procedures play a critical role in CyberLock's ability to provide timely, accurate security solutions to a global customer base.

With over 20 years in the security industry, CyberLock has the experience to deliver the perfect access control solution for your organization. For more information on the CyberLock system, visit www.cyberlock.com or give us a call at 541-738-5500.
